Montpellier, France · hybrid or remote

Two years at a consultancy building Vue/Nuxt business apps for large companies, plus freelance projects taken from design to launch. A former film sound editor and head pizza chef, I build fast, clear interfaces with a strong eye for product and design.

EXPERIENCE

Vue/Nuxt front-end developer · Airddm

Feb 2024 – 2026

- Built two business apps from scratch for large industrial and consumer-goods companies, in a three-person front-end team.
- Implemented JWT/OAuth authentication, role management and complex user flows with Pinia.
- Worked on a Django-to-Vue migration: legacy takeover, reusable modules, SEO constraints.
- Grew a Storybook design system (15+ components), with code reviews and Cypress end-to-end tests.

Freelance front-end developer · Freelance

2022 – present

- Sestini Pizza: visual identity, print materials, Next.js website, Google Business listing, launch and ongoing support for a pizza truck.
- Projects run from first brief to maintenance: UI design in Figma, responsive layouts, local SEO.
- Stack picked to fit the job: Next.js for a local business, Nuxt for a PWA, SvelteKit for a showcase site.

Side projects and shared tools · maxime.codes

On the side

- Toolstr (Angular): helps French speakers find people to follow on Nostr and join the community.
- Calcul TJM (Vue): net income from a daily rate, by French business structure (micro-entreprise, SASU, EURL).
- The Pause, an offline meditation timer (Nuxt PWA), and Polishable, a browser extension that preps a PWA in one click.
- Since 2025, building with orchestrated AI agents (Claude Code): specs, sprints, code and review.

Front-end React developer intern · Onaos

Jan 2024

- Built React components and made targeted improvements to a medical product's codebase over one month.

Film sound, permaculture, head pizza chef · Film Factory · Mongelli

2012 – 2021 · France and the Balkans

- Sound editing and Foley on feature films, permaculture, then a kitchen team to lead and my first Python scripts.
